Q10

To what extent are the NSW environment, industries and communities currently impacted by invasive species?

Heavily

Q11

To what extent do you think existing programs in NSW are effectively managing invasive species?

Reasonably well

Q12

What, if any, are the key barriers to effective management of invasive species?

Education, costs and long term management and solutions

Q13

How has invasive species management changed since the introduction of the NSW Biosecurity Act 2015 legislation and associated programs and plans?

Mild improvement

Q14

What are the future risks posed by invasive species to the NSW environment, industries and communities?

Hybridisation between native dingos and wild dogs, in addition to culling of native dingos which disrupts pack structure and causes problematic behaviour, biosecurity risks to crops through weeds and disease spread

Q15

What opportunities do you see to improve the outcomes of invasive species management in the future?

Education to the public and landholders, revised methods of culling native dingos, better recognition between native dingo and wild dog, budgeting and planning cor long term monitoring and management rather than contract to contract.
