[REDACTED]

Hi,

A family of feral cats has moved under my house. I have called the RSPCA, council, cat protection society and my local vet. No one can help me because apparently cats are allowed to roam free in NSW. And sadly I haven't seen or heard the possums in my garden for a really long time. So I am writing to you because I don't know what to do, But I do know that it's not good for the protection of local species.

Please advise.

Thanks

Jo
