**Q10**

To what extent are the NSW environment, industries and communities currently impacted by invasive species?

severely

---

**Q11**

To what extent do you think existing programs in NSW are effectively managing invasive species?

poorly

---

**Q12**

What, if any, are the key barriers to effective management of invasive species?

weakened and poor control measures by local and industry authorities

---

**Q13**

How has invasive species management changed since the introduction of the NSW Biosecurity Act 2015 legislation and associated programs and plans?

weak and poor control, lack of care and responsibility, no adherence to regulation, no leadership, no deterrents

---

**Q14**

What are the future risks posed by invasive species to the NSW environment, industries and communities?

invasive species are becoming widespread and rampant because of weak and poor control and will wipe out native grassland and woodland and farming communities.

---

**Q15**

What opportunities do you see to improve the outcomes of invasive species management in the future?

stronger regulation and stronger management to implement regulation for those not conforming to regulation

---

**Q16**

Any other comments?

the old noxious weed system seemed to work pretty well
