Subject: Logging in the Brigalow and Nandewar State Conservation Areas
Date: Friday, 25 July 2014 6:21:52 PM

To Whom It may Concern,

To allow logging the State Conservation Areas is a contradiction of intent as far as I can see. What is the point of preserving these areas if you are not going to preserve them?

You either preserve them or don't do it in the first place. It is highly hypocritical to say one thing and then do another. Commercial logging should not be allowed in the national

parks estate. If it is allowed in one instance it is the thin end of the wedge and other excuses to log will be brought in. Then slowly we will lose our biodiversity. One organisation

should not be allowed to decide that logging can take place when it is clearly against the original intention and against the will of the people of NSW.

NSW taxpayers paid \$51 million in restructuring relief in 2005 for these areas to compensate for the loss of areas now protected from logging and grazing. It is a waste of Tax payers

money. These areas should be fully protected for ever.

Yours Faithfully,
Felicity Davis
