Subject: Submission regarding to Draft Report on Active and adaptive management of cypress forests in the Brigalow and Nandewar State Conservation Areas
Date: Sunday, 10 August 2014 8:04:26 PM

I write in opposition to the proposal for ecological thinning (looging) and grazing in State Conservation Areas. I believe that we must adhere strongly to the principles of conservation in areas specifically preserved for this reason. Any deviation from these principles provides opportunity for other values to be eroded as well. Conservation should mean conservation or I fear that further social and environmental values will be open to misappropriation as well.

Sincerely,

G McGilvray
