Subject: Brigalow and Nandewar state conservation area submission
Date: Monday, 28 July 2014 10:35:43 PM

To whom it may concerned:

I am writing this submission with regard to Brigalow and Nandewar state conservation area. I have a major concern that the state government is in the middle of opening up conservation area for logging purpose. This is a very dangerous precedent for further exploitation. Once an area has been declared conservation area they deserve more protection and not otherwise. Any move to commercialise state conservation areas will deteriorate the area significantly and weakening the purpose of conservation itself. As a tax payer, I want to be able to see places where I can connect with nature and these conservation area together with National park serve the purpose. The environment has been attacked at every angles, pollution, global warming, extinction are just a few. These threats are further increased with further reduction of forests cover. Australia is one of the developed country and we should be setting example in protecting the environment to the rest of the world.

Cheers,
Tjoan Lie
