14. Why are you interested in the Brigalow and Nandewar State Conservation Areas or the NRC's review?

Gwabegar was left with little employment after the Brigalow decision and if government does soon not do something with what is remaining of the Pine Industry the town of Baradine will follow in our foot steps and be left a town on welfare. Stop three government agencies running one resource and make the fighting between the agencies. The whole state conservation area needs to be thinned and looked after. Thinning could be undertaken by locals to create employment but this must be over the whole of the Brigalow. Logging is the only industry in this area tourism has not brought income to this community. Please do not make the mistake of the Brigalow decision LOOK at the whole area. The fires in the Warrumbungles last year is a fine example of if you lock it up and not managed you get this kind of distraction. Why can we not log all the areas for management to keep employment and not lock it up if cypress and other species need to be managed.

15. Do you use or access the Brigalow and Nandewar State Conservation Areas?

► **Yes**

No

16. Please specify how/where.

Work & Play

17. Register your interest in receiving updates on this review
