**Q9**

What do you consider is the most significant action(s) we can undertake to protect and restore biodiversity and ecosystem function on private lands?

Educate landholders on the importance of their natural capital so their land systems function successfully and their biodiversity improves

**Q10**

How can we further improve soil, water and vegetation management to protect and restore biodiversity while delivering sustainable economic outcomes?

Exclude stock from highly sensitive areas by fencing. Assist landholders with the cost of fencing

**Q11**

What do you consider is the most effective way to further support and enable landholders to deliver sustainable land management and production outcomes?

Complete a natural capital profile for interested landholders including a carbon emissions audit; provide funds to assist with fencing off critical areas and revegetation of these areas

**Q12**
