Q1

First name
Sarah

Q2

Last name
McLoughlin

Q3

Email
[REDACTED]

Q4 Yes
Can we contact you about your submission (if needed)?

Q5 Yes
Can we add your email to our mailing list for occasional updates on this topic?

Q6 None of the above (I have a general interest in the topic).
What best describes you?

Q7 Other (please specify):
Habitat offsets must not be a license to destroy habitat
What best describes your main regional interest?

Q8

I agree to have my submission published with my name.

Your submission may be published. If you do not want your personal details or responses published, please tell us here.

Q9

What do you consider is the most significant action(s) we can undertake to protect and restore biodiversity and ecosystem function on private lands?

Establish a campaign to protect and restore biodiversity and ecosystem function in a particular area, making clear objectives that benefit landholders and ask for volunteers. Coercion kills cooperation.

Q10

How can we further improve soil, water and vegetation management to protect and restore biodiversity while delivering sustainable economic outcomes?

Promote Regenerative Agricultural practices that are designed to maintain ecosystem function

Q11

Respondent skipped this question

What do you consider is the most effective way to further support and enable landholders to deliver sustainable land management and production outcomes?

Q12

Is there any other information about this topic you would like to share with us?

The Fred Caterson Reserve at Castle Hill has been intact since colonization with only sporting fields to disturb to disturb the communities of creatures that live there. It is worthy of study.
