Dear Ms van Lint ,

**RE: Proposed Amendments to the Environmental Outcomes Assessment
Methodology (EOAM)**

Further to your email of 20th November 2006 requesting comments on the suitability of proposed amendments to the EOAM, particularly changes to Chapter 6 (Soil Assessment) and replacement of Appendix B.

The Lower Murray Darling Catchment Management Authority (LMD CMA) has conducted a review of the proposed amendments and in its opinion, considers that the changes are positive. LMD CMA feels that the changes will assist in maintaining transparency of the process and promote greater Landholder understanding.

Should you require any further information in relation to this matter, please do not hesitate to contact us on (03) 5021 9460.

Please quote the above file reference in all future correspondence.

Yours sincerely,

Mark King
