Has the Government ..had cause with the number of against the cull/kill petitions and individual protests...to change its mind and listen ..people see these Brumbies as sacred ...and would prefer you take Pharlap out of the museum and shoot him ... Does the Government realize the amount of angry voting citizens ? Who want this stopped ..and white Australians to have sacred Horses...kept safe ? Does the government ..realize the depth of anger over killing of non –Indigenous ... Does the Government realize we are sick of having the division ...we are all Australians ? Does the Government realize we ..Australians ..and I whose great grandfather rode an Australian brumbie to WW!does the Government realize we value the Brumbies as Anzacs ...and will be as appalled and angry for a century ...as if the government shot a memorial site ? Does the Government realize ..we in our millions are looking for pro Brumby Politicians to vote for ? ...we are a Horse culture ...from the racehorses to the ponyclubs ..we all talk .. Kind regards Sue

I hope the hundreds of thousands of Australians against this ...can help you to understand ..we don't see out heritage Horses as pests ...my great grandfather rode one of these Horses to WW1 ...Australians will bring down a government that supports killing Brumbies ..

I completely disagree with the killing of the Brumbies ..completely ..i hope the government takes notice ..and changes this decision ..to show some respect for what is sacred to the Australian people ... We cherish our wild Horses ..as Anzacs ..one of these Horses ..carried my great grandfather into WW1 ..and safely brought him ..home ..my family as never forgiven the government for not bringing the Horses home from the war ...we ..the Australian people will never forgive the

government that shoots the Brumbies in 2016 ...
Either the Snowy or Barmah Brumbies ...
Do you want to create a race war?
Kind regards Sue Andrews
