We, J & E M Kiss, General & Precision Engineering of 15 Bathurst Street, Condobolin NSW 2877, are a small engineering business of three people that rely on Grants Sawmilling Co Pty Ltd for part of our income. If Grants lose their wood supply agreement that would put our business in a difficult situation and also their employees. Condobolin needs the sawmill as it is an important employer and businesses have come to rely on this secure income.

Thank You Edna Kiss
