

TO WHOM IT MAY CONCERN

Our Company has been using Grant Sawmilling at both Narrandera and Condobolin for our supplier of Cypress Wood Chip, Saw Dust and Mulch for almost 20 years. Our trucks are at their sawmills two to three days every week. We also do Contract Grinding of their mill waste from time to time. If either of these mills were to close it would impact on our staff and truck numbers to the degree that both would need to be reduced.
