22<sup>nd</sup> March 2010

Dear NRC,

In regards to the NSW Government review of the use & tenure of the South West cypress region I would like to put forward my comments.

I am the director of Boots Constructions Pty Ltd, a local Leeton business that provides employment for approximately thirty full time employees & ten casual employees. An important part of my business is the supply of landscaping & garden supplies to businesses & general public.

We purchase from Grant Holdings Co Pty Ltd, Narrandera on average 460mtrs of sawdust & 340mtrs of Woodchip per annum.

The impact of the loss of Grants Holding Co Pty Ltd to small rural towns as Leeton & Narrandera as a major employer would be devastating.

Boots Constructions Pty Ltd would also be affected by the loss of supply & the knock on effect would also eventually be loss of jobs in my company.

Regards,

Michael Boots  
Manager  
0427 641 849
