**Subject:** South-Western Cypress State Forests submission

To Whom It May Concern

We are aware that The Natural Resources Commission is currently reviewing conservation, sustainability etc. of the southwest cypress region.

As a retailer of Cypress timbers we would like to submit our point of view.

We have dealt with Grants Sawmilling Co. Pty. Ltd. for approx. 20 years and have always had quality timber and good service. We believe they are an important asset in the timber industry, in their local community with the people they employ, and also wider a field in catering Australia wide to certain timber needs.

Grants are a responsible supplier of timber and therefore have our support because we believe they will continue to do what is correct for the future of the industry.
