Subject: cypress Narrandera

I am 58 years old and have been employed at Grants Sawmill for 34 years. I am concerned about the effect that the Cypress Forest Assessment will have if there is any cut backs to the sawmill and the loss of jobs. I am not only concerned for myself but also for my fellow workers and the towns of Narrandera and Condobolin that have been doing it hard for many years due to the drought, also at my age where do I start to get a job with little qualifications.
