To whom it may concern

I would like to express concern with Grants Sawmilling Co.

It would be detrimental to Condobolin if Grant's sawmilling Co was to be closed or moved. As they employ 12 local employees which benefits the town greatly. Employment is very hard to find due to the 10 year drought so employment on the rural sector is very minimal. If these 12 employees lost their jobs it would very difficult to find employment elsewhere in Condobolin. As a manager I support the use of the forest and support Grants Sawmill Co as all businesses in the town of Condobolin rely heavily on each other due the impact of the drought we are experiencing.
