Subject: submission - red gum assessment

Dear Commissioners,

As a resident of Deniliquin, Owner in a Business & have a partner in the Red Gum Industry I find this report unspeakable.

These Sydney/Canberra people do not understand our Rural community & how many people will be affected by letting our forests get mismanaged & taken away years of lifes Natural resources "Timber" - Our every growing substainable industry that is use in soo many different ways. Our River Redgum need to be removed & used for managed resources - Employment & Our township will be affected by this industry closing & not use for it usable matter - Be aware "Fire will arise" Action must be stop NOW.

Kind Regards  
Jacqui Ellis

Thankyou
