

RIVER RED GUM AND WOODLAND FORESTS

SUBMISSION WIRADJUI

I SPEAK AS ONE MAN OF MY NATION THAT IS APPALLED BY STATE OF THE FOREST ALONG THE MURRUMBIDGEE RIVER AND ITS TRIBUTARY THE ENVIRONMENT VANDALISM THAT AS BEING CARRIED IN THE MURRUMBIDGEE AND YANCO CREEK FOREST FOR LAST HUNDRED YEARS AS TO SLOW DOWN OR CEASE CUTTING DOWN THE REMAINING FOREST THAT LEFT IF THE LOGGING CONTINUE AT THE RATE OF THE LAST 100 YEARS THERE WILL BE NO NEED FOR CONCERN FOR THE FOREST OR RIVERS; CREEK OR BILABONGS OR WETLANDS THEY WILL BE GONE.

THIS DROUGHT IS IN MY OPINION IS MAN MADE THOUGH OVER PRODUCTION OF THE NATIVE RESOURCES ALL OVER THE COUNTRY AND A LACK OF UNDERSTANDING OF WHAT MAKES THE RIVER COUNTRY MORE PRODUCTIVE THAN THE REST OF THE COUNTRY

THE LAST BIG FLOOD THAT WAS ON RECORD WAS IN THE 1970 76 OR 78 - FORTY YEARS AGO AND SINCE THEN THERE HAS BEEN NOT ENOUGH RAIN TO FILL THE RIVER; CREEK; BILABONG AND WETLANDS AND THE HOLE FOREST AND WITH THE SLOWLY PROGRESSION THE WETLAND; CREEK AND BILABONGS BEGAN TO DIE AND THE BIRDS AND ANIMALS BEGAN TO LEAVE THE WETLAND AND GO TO THE CREEK THE MURRUMBIDGEE AND THE YANCO CREEK FOR HAVEN OF FOOD AND SHELTER IN THE TALL RED RIVER GUMS THAT EXISTED ALONG THE MURRUMBIDGEE AND YANCO CREEK

ALTERNATIVELY THE NSW GOVERNMENT AS TO LOOK AT WAYS TO CREATE A PLACE TO GROW RED GUM TREE TO LOG FOR WHAT EVER INDUSTRY THE RED GUM WOULD BE SUITED FOR AND LEAVE THE RIVER RED GUM TO GROW LIKE THEY WOULD ONE HUNDRED YEARS

YOUR IN UNITY

JIMMY INGRAM ONE OF THE ELDER
